Yes No Has the patient ever experienced chronic ringing in the ears?
Yes No Does the patient need extra help with instructions?
Yes No Is the patient sensitive or self-conscious about his/her teeth?
Yes No Height of parents? Mom \_\_\_\_\_ Dad \_\_\_\_\_
Yes No Are you aware that some appointments will be during school hours?

BENEFITS

Benefits of Orthodontics: Aesthetics, Health, and Function. Orthodontics is a service that provides an improvement in the appearance of the teeth, in the general function of the teeth, and in general dental health. Teeth, gums, and jaws are an intricate body part and can fail to respond to treatment. If good oral hygiene is not practiced, tooth decay and enlarged gums can result. Joint discomfort and root shortening are observed in a small percentage of cases. Teeth change throughout our lifetime and there can be some movement of teeth and some change after treatment. I have read and understand this paragraph. I also understand that my diagnostic records and my name may be used for educational and promotional purposes. I have truthfully answered all the above questions and agree to inform this office of any changes in my medical or dental history. In addition, I authorize Dr. Ellis to perform a complete orthodontic evaluation.
